

19/20 May 2016, Bombay Exhibition Centre

## About Multimodal Logistics

The best of the supply chains cannot work to optimal efficiency without being ably supported by world class transport networks. In the Indian context the size of the geography, availability of huge railway networks, initiatives on the development of inland and coastal shipping networks and the modernisation of highway networks is something that is rapidly changing the paradigm but creating the right multimodal mix still intrigues many supply chain heads. This conference will share researched insights into the latest development in the multimodal industry, the best practices in planning transport networks, identifying the right balance between low cost low speed rail networks and high cost high speed road networks etc. The insights will be delivered by senior professionals from the rail operations, shipping, transport, ports, air cargo professionals and will be a must attend for supply chain heads, transport planners, freight forwarders, shipping companies etc.

## 19 May 2016, Conference Day One

0900 Registration & Coffee

0925 Welcome Remarks by Conference Chair: Mr Shanti Narain, Chairman CILT India

### Session I

930 – 1130 Emergence of new logistics modes for building a robust Multimodal network and enabling "Make in India"  
1130 -1145 Refreshment break

### Session II

1145 – 1330 Rail Transport as the backbone of an efficient multimodal network  
1330 – 1430 Networking Lunch & visit to the exhibition

### Session III

1430 – 1600 Agri-Logistics & Warehousing- the emerging opportunities for logistics players  
1600 – 1615 Refreshment break

### Session IV

1615 – 1730 India as a transshipment hub – opportunities for the ports to leverage this growth

1730 Closing remarks and end of day 1

## 20 May 2016, Conference Day Two

0930 Registration & Coffee

### Session V

1000 – 1130 Road transport – improving efficiencies, reducing costs and enhancing last mile connectivity in next decade  
1130 – 1145 Refreshment break

### Session VI:

1145 – 1315 Can India become a transit point for imports, exports and re-exports to South Asia  
1315 – 1415 Networking Lunch & visit to the exhibition

### Session VI

1415 – 1545 Leveraging new age IT and communication technologies to improve efficiencies of the logistics sector  
1545 -1600 Refreshment break

### Session VI

1600 – 1730 Green Logistics: Committing to a long-term sustainability strategy

1730 Closing remarks and end of conference
